

FIELD ERECTED COOLING TOWERS (FECT)

TORRAVAL
cooling

Why Field Erected Cooling Towers?

Field-erected cooling towers are used in a wide range of cooling applications such as industrial processes, refineries, manufacturing, power plants and HVAC.

Torraval cooling towers are designed and configured to meet the most critical customer thermal performance in a cost-effective way. Our designs are born for guaranteeing both lower energy consumption and operating costs, while providing ease of inspection and maintenance.

Why WET Cooling Towers?

The most affordable

Lower investment

The most efficient technology

Lower power consumption

Is **legionella** a real problem?

Not at all

The most silent

Slightest sound

The most compact technology

Lower area

I do not want **steam plume**

TORRAVAL can remove it

Are there **size limitations**?

Not at all

Why TORRAVAL?

Since 1967 Torraval offers a wide range of evaporative cooling towers (FECT).

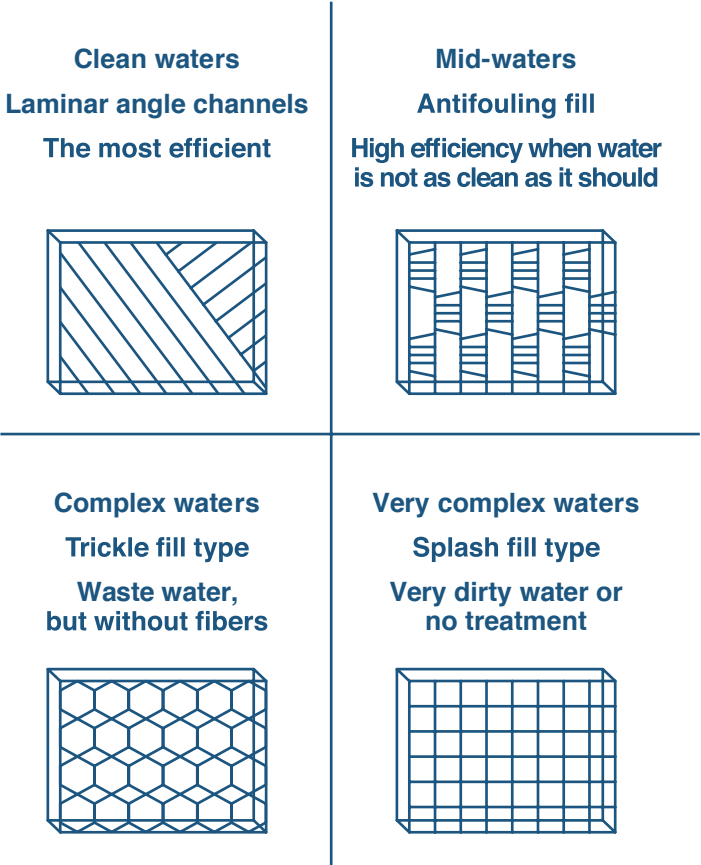

Our principles:

FEXIBILITY 100% tailor-made solutions to customer requirements

EFFICIENCY Solutions aimed at saving energy

QUALITY Solutions designed for long life

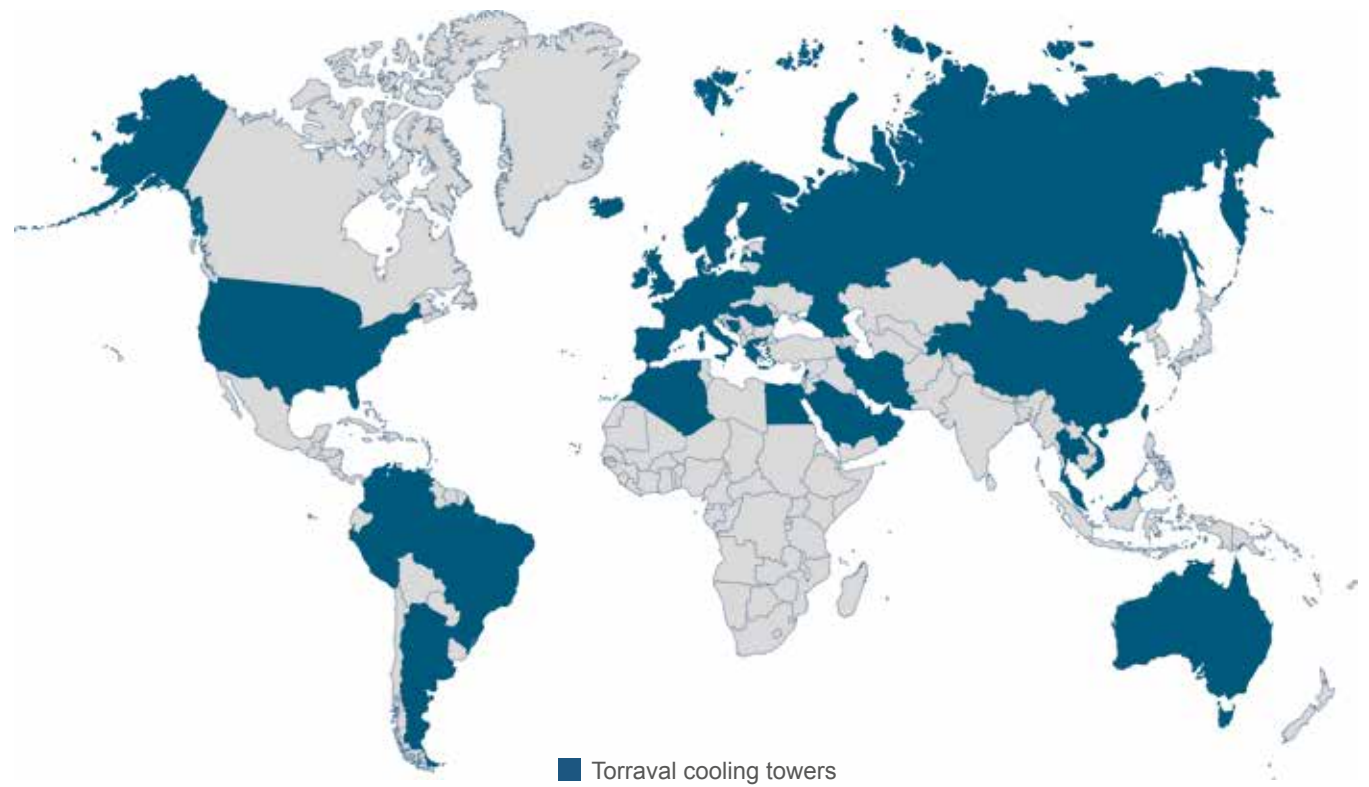

Water quality

Structure types

Type	Concrete	Steel	FRP
Affordable			
Long life			
Foul water
